

# Mohamed Abdelhamed

## Full Stack .NET Developer

El Mahalla El Kubra, El Gharbia, Egypt

mohamed.elanby@icloud.com · +20 01019 015 842 · Portfolio · GitHub · LinkedIn

### SUMMARY

Full Stack .NET Developer with practical experience building production business applications for healthcare platforms, CRM systems, and client-facing products. I work across ASP.NET Core APIs, SQL Server, JWT authentication, role-based access, and responsive frontends with Angular and React.

### TECHNICAL SKILLS

**Backend:** ASP.NET Core, C#, Entity Framework Core, Dapper  
**Database:** SQL Server, relational modeling, query optimization  
**API & Security:** REST APIs, JWT, Identity, Firebase notifications  
**Frontend:** Angular, React, TypeScript, JavaScript, HTML, CSS, responsive UI  
**DevOps & Tools:** Azure DevOps, CI/CD, Git, GitHub, Postman, VS Code, Rider, Figma

### SELECTED PROJECTS

#### Radiology Management Platform

Full Stack .NET Developer

Healthcare management system

- Built REST API features for radiology appointments, insurance workflows, and contract management.
- Implemented JWT authentication, role-based permissions, and SQL Server data models.
- Integrated a React frontend with backend services and Firebase notifications.

Stack: ASP.NET Core, C#, SQL Server, REST APIs, JWT, React
